Section 1

Background introduction

Create an ecosystem and token incentive model based on
DeFi, NFT, and GameFi

Millionaire • Blockchain background

300 million

The number of investors in blockchain encrypted digital assets is conservatively estimated to exceed 300 million

Blockchain background

Trillions of dollars

The trend of asset digitization has taken shape. The Internet of Things, big data, artificial intelligence, and asset security requirements have promoted asset digitization. As of 2022, there are more than 11,000 types of encrypted digital assets worldwide, and the asset scale reaches trillions of dollars at its peak.

Millionaire • DeFi's continued prosperity

Decentralized Finance

DeFi decentralized finance has the characteristics of code neutrality, open source, decentralized operation, no centralized supervision, and decentralized autonomy.

DeFi uses smart contracts to allow digital assets to rebuild the traditional financial order in the blockchain network and generate synergies with each other. DeFi uses smart contracts to allow digital assets to rebuild the traditional financial order in the blockchain network and generate synergies with each other.

GameFi powered by Millionaire • NFT

It is indivisible,
irreplaceable, unique, etc.

NFT Non-Fungible Token

GameFi became popular with the addition of NFT

Presenting financial products in the form of games, gamifying the rules of DeFi, such as using NFT equipment to increase revenue, introducing battle modes, etc. Compared with traditional liquid mining, GameFi projects are more interactive with users and have higher interest.

Section 2

About us MAI

Create an ecosystem and token incentive model based on
DeFi, NFT, and GameFi

Millionaire • Introduction

Millionaire

DeFi+NFT+GameFi

Create a more innovative and expandable financial platform based on DeFi+NFT+GameFi. Through all-round basic functions and diversified economic models, create a multi-asset interoperable autonomous management system, establish a complete DeFi ecosystem, provide a complete decentralized financial infrastructure, and become the king of aggregate transactions in the DeFi field. The value circulation of encrypted digital currency creates more possibilities, allowing more people to share the benefits of the development of blockchain technology!

Millionaire • Technological innovation

- Original hidden P2P communication network
- New data structure
- Safe and efficient autonomous consensus mechanism
- New anti-quantum attack cryptographic algorithm
- Anonymous transaction privacy protection
- Advanced Turing complete smart contract
- Cross-chain communication and multi-chain integration
- Multiple Token distribution methods and methods
- Open universal interface

Millionaire • Commercial Landing Plan

Asset value
protection

Multi-asset
access

Democratic
gaming
environment

Game asset
issuance

Game asset
trading

Multiple
incentive system

System security

Millionaire • Mission and vision

Establish a fair and open comprehensive application system

Millionaire's mission is to build a complete value ecology for global users in the blockchain era, and hope that this ecology can provide protection for users' free will and personal value, especially time value. Solve the trust and fairness issues faced by finance, payment, liquidity, pledge lending, and entities' commerce, consumption, entertainment, supply chain, finance, etc., and make the entire competitive environment more fair, open and efficient.

Section 3

Play system

same value Public offering

Create an ecosystem and token incentive model based on
DeFi, NFT, and GameFi

5USD God of War game • Win Number

Jackpot	No.888 Win round Prize pool 20%USD	
 Lucky Number Partial display	No.3 (50\$) No.15 (30\$) No.25 (20\$) No.38 (40\$) No.48 (60\$) No.68 (30\$)	No.8 (10\$) No.21 (10\$) No.33 (30\$) No.43 (50\$) No.58 (40\$) No.77 (50\$)
Pay bonuses	Winnings are automatically distributed to the purchase address.	

Millionaire • Description of Win rules

Win conditions

Number purchased after the drawing time has stopped must match the winning number to win the prize.

Within the lottery time: the number of the number you purchased is not fixed, all (finally) the newly purchased number is the number 1, has been purchased. The number you buy increases according to the number of new purchases made by all players this round.

(1 + all new N purchases = your number scrolling digits)

Lottery stop: the number you purchased will stop rolling. If your purchased number matches the winning number, You win the corresponding prize!

A maximum of 10 numbers can be purchased from a single address in each round

The same value public offering

You must participate in the 5USD God of War game to obtain the equivalent MAI governance token, which will be released linearly within 100 days.

Millionaire • Buy fund allocation

5USD
Distribution

MAI Public
offering

5USD Buy 1 Number

Inject bonus pool 50%
Add the MAI base pool 20%
Chain fuel 10%
Friend Buy reward 10%
Add bonus pool dividend 10%

Participate in the 5USD God of War game =
Governance token MAI equivalent public
offering.

Millionaire • Buy description of fund allocation

**Inject
bonus pool 50%**

At the end of the round, the prize pool allocates the lucky number prize first, followed by the (888) grand prize number prize.

**Add the MAI
base pool 20%**

Smart contracts reaching 10USD are automatically added to the MAI/BNB transaction bottom pool.

Chain fuel 10%

It is used to pay for on-chain fuel expenses such as share reward release, airdrop reward release, etc.

**Friend
Buy reward 10%**

Reward each Buy:
Level 1 friend 6%
Level 2 friend 4%

**Add bonus pool
dividend 10%**

Players who add to the bonus pool will receive a permanent bonus share of all the funds purchased from the number in proportion to the percentage added.

Millionaire • Description of bonus pool fund allocation

Bonus pool 5%-40%

Keep 5%-40% of the bonus per round and save it until the next round.

Players Win 50%-85%

Win bonus is automatically paid to the purchase address.

Friend Win 10%

Level 1 Friend 6%
Level 1 Friend 4%

Millionaire • Add bonus pool fund allocation description

Inject bonus pool 90%

All funds added to the bonus pool are injected into the bonus pool in real time.

Friends add bonus pool reward 10%

Level 1 Friend 6% , Level 1 Friend 4%

MAI repo 10%

Buy back MAI from secondary market every month and destroy it

Millionaire • MAI TOKEN Circulation and distribution

◆ MAI: 1 billion ◆

MAI is the governance token of the entire Millionaire, and all ecological thresholds are carried out around MAI, which are used to record, transfer and pay accounts in DeFi and more applications in the future.

- **Technical team 10%**
(Uses: ecological development, maintenance and upgrading, etc.)
- **Community incentive 10%**
(Uses: marketing, community incentive cooperation, etc.)
- **Game public offering 40%**
(Uses: Participate in the game by way of public fundraising.)
- **Ecological application 40%**
(Uses: ecological manager reward, game economic reward, etc.)

Release rule: 10% of all assigned items are released each year, and the release is gradually reduced by 10% each year from the second year.

Millionaire • MAI Trading slippage

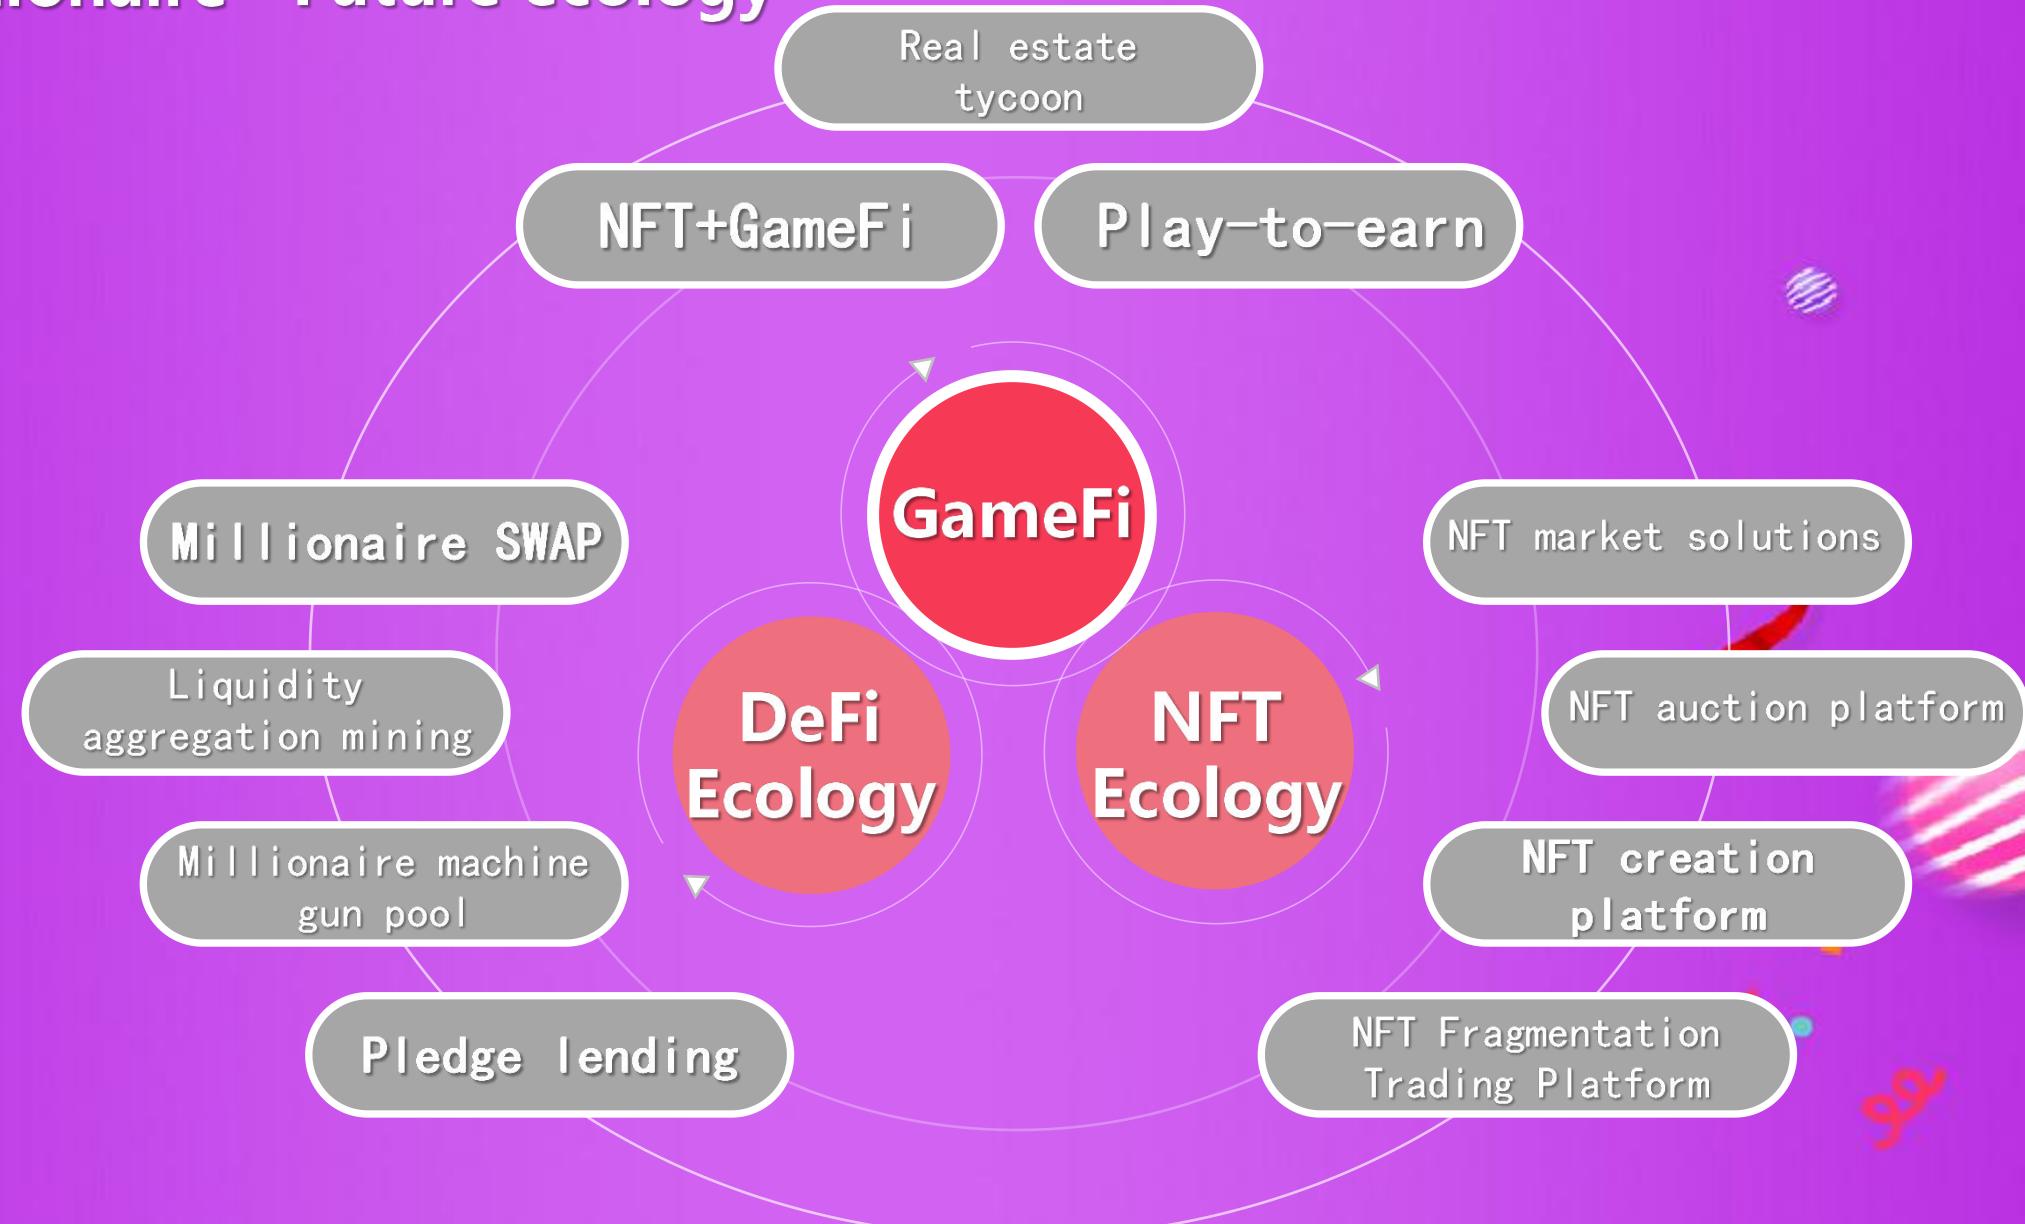

Buy	5% Slippage distribution
Level 1 Friend	3%
Level 2 Friend	2%
Sell	5% Slippage distribution
Incineration	2%
Add LP reward	3%

Bind friend: Address receives MAI token for the first time and binds the superior and subordinate friend relationship.

Millionaire • Development route

Millionaire • Future ecology
